

PETITION TO FILE FOR BANKRUPTCY

Global Insolvency Services.

Baker Ing has many years of experience identifying insolvency cases where the interests of creditors are best served by the appointment of an IP. We have the expertise to ensure recoveries are achieved in an efficient and timely manner, meaning that the prospects of a dividend return to creditors are maximised.

The Baker Ing team have a proven track record of identifying and recovering assets that directors or bankrupts may have thought were placed beyond the reach of creditors e.g., placing into sham trusts, switching ownership, selling at below market value or simple non-disclosure.

Working alongside a trusted network of specialist lawyers, we often instigate legal proceedings against non-cooperative directors, bankrupts or third parties who may attempt to hinder our thorough investigation and recovery process. By taking these steps, creditors can be satisfied that no Stone is left unturned in the pursuit of recoveries.

Our complementary creditor support service, provides our clients with the opportunity to save time and money by leaving the administrative work to us.

We also provide regular advice and support to creditors to ensure they full advantage of their voting power.

NOW IS THE TIME.

We are advising all clients to consider onboarding managed insolvency services, at this time. The increased burden Covid-19 has placed on credit professionals worldwide has already stretched resources. In addition, both the frequency and complexity of insolvencies is increasing as a greater number of larger companies experience difficulties.

Acting as Your Agent.

We complete and submit all paperwork necessary to participate in the insolvency voting/nomination process, per our client's preferences. We represent your interests at creditor meetings and will explain what your rights and entitlements are as a creditor.

Prior to the appointment of an insolvency practitioner, our team monitors developments on your behalf to provide you with interim updates. We explain each insolvency process in plain, unambiguous terms and will direct you to one of our insolvency practitioners specialising in the sector in which the debtor operates. You will then receive an assessment of your recovery prospects from the insolvent estate.
